

Azrock Tile Flooring Products by Tarkett

LEED™ Green Building Certification Program

ACHIEVE TILE

LEED Credit Matrix for Commercial Interiors (LEED-CI v2.0)

LEED credit	Credit Name	Possible Points	Intent	Applicability to Azrock Tile Flooring Products	Details
MRC2.1 & MRC2.2	Construction Waste Management	2	Divert construction, demolition and land clearing debris from landfill disposal. Redirect recyclable recovered resources back to the manufacturing process. Redirect reusable materials to appropriate sites.	Product contributes its portion (by weight or volume) of the total quantity of waste generated and diverted in the process of construction and demolition. Applicable when Contractor ReUse Program is in place	Tarkett's Contractor ReUse Program allows for flooring installation waste to be diverted from the construction /demolition process and recycled at Tarkett's manufacturing facility. Product contributes its portion (by weight or volume) of the total quantity of waste generated/diverted during construction / demolition process
MRC4.1 & MRC4.2	Recycled Content	2	Increase demand for building products that incorporate recycled content materials, therefore reducing impacts resulting from extraction and processing of virgin materials.	Product contributes its proportionate value (<u>by cost</u>) to the total cost of all recycled materials on the project, including furniture and furnishings	2% Pre-Consumer recycled content. Go to www.azrock.com for more information.
MRC5.1	Regional Materials - Manufactured Regionally	1	Increase demand for building materials and products that are extracted and manufactured within a region, thereby supporting the regional economy and reducing the environmental impacts resulting from transportation.	Product contributes its proportionate value (<u>by cost</u>) to the total cost of all materials manufactured within 500 miles of the project site	Go to www.azrock.com for radius map and more information
MRC5.2	Regional Materials - Extracted and Manufactured Regionally	1	Increase demand for building materials and products that are extracted and manufactured within a region, thereby supporting the regional economy and reducing the environmental impacts resulting from transportation.	Product contributes its proportionate value (<u>by cost</u>) to the total cost of all materials extracted, processed and manufactured within 500 miles of the project site	Go to www.azrock.com for radius map and more information
EQc4.1	Low Emitting Materials: Adhesives & Sealants	1	Reduce the quantity of indoor air contaminants that are odorous, potentially irritating and/or harmful to the comfort and wellbeing of installers and occupants.	All Tarkett flooring adhesives are low-emitting adhesives, not exceeding the VOC standard set by SCAQMD Rule #11168 and CHPS-CA Section 1350.	<1g/L. Go to www.azrock.com for more information if needed
				Smart Spray aerosol is FloorScore certified and meets the Green Seal Standard for commercial adhesives GS-36. It is a no-VOC product.	Go to www.azrock.com for more information
EQc4.3	Low-Emitting Materials: Carpet Systems	1	Reduce the quantity of indoor air contaminants that are odorous, potentially irritating and/or harmful to the comfort and wellbeing of installers and occupants.	All Azrock tile products are FloorScore Certified	The USGBC/LEED program now allows for FloorScore Certified resilient flooring products to contribute to this credit under an alternative compliance path. Go to www.azrock.com for more information.
